Bachelor of Education Degree (Elementary)
REGISTRATION TIP SHEET 2017

The Bachelor of Education Degree in Elementary prepares you to teach all subjects in elementary school (Kindergarten to Grade 6).

The degree program is worth 120 credits. This means that you have to take approximately 40 courses to complete your degree and most students complete the program in four years.

Program Requirements
The program can be divided into the following 4 parts:

- EDU 100, EDU 210 and EDU 211 ............... 9 credits
- Non-Education Element Courses ............... 51 credits
- Year 3 Fall Term Required Courses.......... 9 credits
- Introductory Professional Term (IPT)......... 15 credits
- Advanced Professional Year (APT).......... 15 credits
- Other Degree Requirements..................... 21 credits

Total Credits:120

NOTES
1. One course is typically equal to 3 credits.
2. A full course load is 15 credits per term (5 classes), however students will still be considered as full-time if they are registered in 3-5 classes per term.
3. Non-Education Options are any course that does not have the ED prefix.
4. Open Options are any course offered at the University, including Education courses.

Planning Resources
There are many resources available to help you select courses and plan your program.

1. Program Sheet – all students are provided with an individualized Program Sheet, sent to your ualberta email, when you are admitted to the Faculty of Education. Refer to your Program Sheet for a list of your specific program requirements.
2. U of A Calendar – The U of A Calendar is an important resource for students.

Your First Year
Everyone’s first year is unique; please ensure to follow your personalized Program Sheet that was sent with your offer of admission to your ualberta email account.

For your first year you can choose courses from the non-education elective courses, EDU 100, EDU 210 and EDU 211. (We strongly recommend completing EDU 100 in your first year, followed by EDU 210 and 211 in either your first or second year).

Tips for creating your timetable

1. Create a balanced timetable: Do not register for more than three courses with attached labs; you will have lab assignments and exams in addition to regular coursework.
2. Make sure to check pre-requisites: Some classes will need you to present certain pre-requisite courses prior to taking them. This information can be found in the course descriptions on Bear Tracks or in the Calendar.
3. If the class you want is full: Simply put the class on your “Watch list” (found on Bear Tracks). You will be notified via email or text message when a spot becomes available in the class.
